

FiberOpto

Propelling Fiber Optics Communications Ahead

FiberOpto Asia

FiberOpto Asia Pte Ltd offers integrated solutions for Fiber Optics communications in Asia. We are a One-Stop Shop for Fiber Optics solutions. We have expertise in Fiber Optics network design & consultancy, system integration, costs analysis, project management, network installation, testing & commissioning, training and a full spectrum of other infocomm services. FiberOpto Asia is positioned to take advantage of the fast growing telecom market in Asia especially in the area of FTTH.

FiberOpto Asia was founded by a group of dynamic telecom technopreneurs who have been in the telecom industry for more than 20 years, coming together with a common set of objectives to provide innovative, optimized and cost effective solutions to our clients.

We co-operate with local and international consultancy partners to provide innovative solutions for FTTH. In addition, we also represent several international brands for their sales and distribution activities in Asia. We are also active in regional markets such as Malaysia, Indonesia, Thailand, Vietnam, Philippines and Brunei.

We offers services such as :

- Network Design & Consultancy
- Systems Integration & Engineering
- Project Management
- Product Engineering
- Network Installation
- Network Engineering & Maintenance
- Network Testing & Commissioning
- Fiber Optics Training

Value Propositions from FiberOpto Asia :
